

What Is Green Gentrification?

“Green Gentrification looks at the social consequences of urban ‘greening’ from an environmental justice and sustainable development perspective...green gentrification that pushes out the working-class, and people of color, and attracts white, wealthier in-migrants. Simply put, urban greening ‘richens and whitens,’ remaking the city for the sustainability class.”

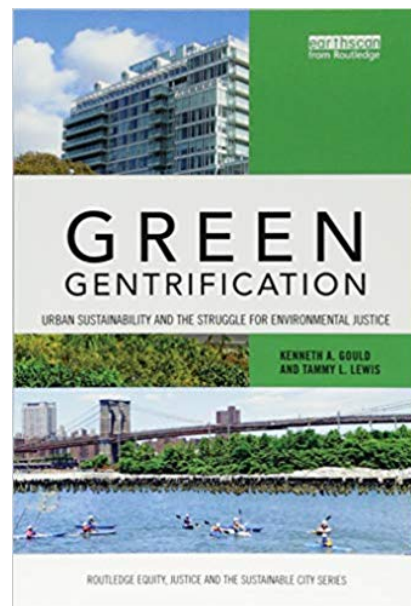

Date: November 8th

Time: 1:45 - 3PM

Location: Gore Hall 104 (UD)

Free and open to the public!

You are invited to a public lecture and discussion of the book *Green Gentrification: Urban Sustainability and the Struggle for Environmental Justice* (2017), by professors and authors **Kenneth Gould and Tammy Lewis.**

Dr. Lewis is professor of sociology, Brooklyn College - CUNY, and professor of sociology and earth and environmental sciences, CUNY Graduate Center. In the 2018-2019 academic year, she is serving as Interim Associate Provost for Faculty and Administration.

Dr. Gould is professor of sociology and Acting Dean of the School of Humanities and Social Sciences, Brooklyn College - CUNY, and professor of sociology and earth and environmental sciences, CUNY Graduate Center.

Co-Sponsored by the Disaster Research Center, the Center for Community Research and Service, the Delaware Environmental Institute, and the Department of Sociology and Criminal Justice. Contact Dr. Victor Perez for more information victorp@udel.edu
